(note)

We conducted 1-for-5 consolidation of shares on October 1, 2017, and net income per share is calculated based on the assumption that the consolidation of shares was executed at the beginning of FY2016.

3. Reasons for the revisions

(1) Non-consolidated forecast

While net sales is basically in line with previous forecast, operating income is expected to increase by 35.6 billion yen compared to previous forecast, reflecting an increase in construction gross profit due to improvement of construction gross margin ratio.

Ordinary income will increase by 38.1 billion yen and net income will increase by 27.1 billion yen compared to previous forecast, reflecting the increase in operating income.

Furthermore, gross margin ratio is expected to be 16.7% (civil engineering: 23.7%, building construction: 14.3%)

Previous forecast: 13.9% (civil engineering: 17.7%, building construction: 12.7%)

(2) Consolidated forecast

In addition to revisions of non-consolidated forecast, consolidated operating income, ordinary income, and net income attributable to owners of parent are expected to increase by exceeding change of non-consolidated forecast due to strong performance of subsidiaries.
