

Declaration of Biodiversity Preservation by Taisei Group

Based on the Taisei Group Philosophy "To create a vibrant environment for all members of society," the Taisei Group declares the following seven action policies in order to continue being an organization which will build "a society co-existing with nature".

1. We recognize that our business activities rely on the benefits of biodiversity and have the potential to influence ecosystems, and will conduct corporate management that harmonizes with the operation of nature.
2. We will make use of the environmental management systems (EMS) and other means to grasp and assess the influence of our business activities on ecosystems and local communities in Japan and overseas, and promote nature-positive initiatives to restore the soundness of ecosystems.
3. We will initiate planning and designing communities and facilities that lead to a society in harmony with nature, and actively make proposals for the preservation, restoration and creation of biodiversity.
4. We will improve our environmental technology that contribute to the preservation and sustainable use of biodiversity, and work with our customers to promote nature-based solutions with the results of these efforts.
5. We will expand communication with our suppliers, local communities, domestic and overseas NGOs and NPOs, research and educational institutions, etc., and promote cooperation and collaboration with these authorities in activities that contribute to the preservation and sustainable use of biodiversity.
6. We will promote awareness and education that result in enhancement of understanding and changes in behavior in connection with biodiversity, and execute human resources development for a society co-existing with nature.
7. We will fairly disclose information relating to natural capital and corporate activities.

March 2023

Yoshiro AIKAWA
Representative Director, President and Chief Executive Officer
Taisei Corporation
